

# Production Workflow

**Please note:** Depending on the project, some might be omitted.

## Phase 1 | Sending Files

- Follow this guide to upload your files: [UPLOAD](#)
- For our first collaboration, I'll send you a link to your personal folder. Everything related to the production will be found there.
- In case of technical issues, alternatively send files [HERE](#) to info@paulmisty.com

## Phase 2 | Studio Sessions

This step might not always be required, e.g., for pure mix/mastering.

### Songwriting & Arrangement:

- Once version 1 is ready, I'll upload it to your folder. If you have changes, I'll quickly send you a revised version.

### Recording:

- We'll set a date and meet in my studio. Alternatively, you can record elsewhere and upload the tracks.

## Phase 3 | Joint Fine-Tuning

- I'll notify you once the mix is done.
- We'll set a date and adjust the sound to your liking.
- All you need is a device with internet and your usual headphones.

## Phase 4 | Finalization

- After mastering, I'll upload your song and notify you.
- If you have any changes: just let me know. If everything's perfect, please inform me.
- In the end, you'll receive all files for distribution, and we're done!
